BIRTH DEFECTS AFFECT ONE OUT OF EVERY 16 BABIES BORN IN THE U.S.

PARTHRITIS AND RHEUMATISM AFFLICT 11,000,000 AMERICANS

POLIO CAN STILL STRIKE ANY OF OVER 85,000,000 UNVACCINATED AMERICANS

Birth defects affect one out of every 16 babies born in the U.S.... over 250,000 children are born in this country each year with some significant defect . . . every other minute, a child is born with some type of defect.

Arthritis and rheumatism afflict 11,000,000 Americans of all ages—ranging from the very young victims of juvenile rheumatoid arthritis to the very old victims of osteorathritis. For all ages, arthritis can be a painful, disabling disease.

Polio can still strike any of over 85,000,000 unvaccinated Americans, bringing with it a lifetime of crippling, even death. And for the thousands of victims who were stricken in the years before the Salk vaccine, polio means a future limited by crutches, braces, iron lungs.

The national Foundation, supported by the New March of Dimes, will do something about these crippling diseases. You can help make this possible for all citizens in this Pocono Mountain area by saying "YES" to the mother that calls at your home.

## WHY A SEPARATE DRIVE?

A separate drive is the only way to raise sufficient funds for a nationwide research program.

A separate campaign is the best way to let the public know about matters of health, disease symptoms, precautions and the development of preventives.

A separate drive lets the public give directly to a cause that they can understand and believe in. Our message is more than a plea for funds. It is also the public's opportunity to take an active part in meeting the health problems of their community and their country.

### Fire Which Ruined Home Still Mystery

A CAUSE of fire, which leva mystery a little more than a

upied since the death of Keipe in 1955, was believed to have burned around 4:30 a.m. Monday, Jan. 23.

Ownership to the property was claimed by two parties, and as a result the home was not occupied. A Community Center in Long Pond, next to the Keiper building, was not touched by the fire.

Area residents claim little or any knowledge of the blaze. Two fire companies in the area also had no record of an alarm being sent in.

Sgt. Donald K. Unger, Pennsylvania State Police Fire Marshal, began investigating the fire on Thursday, Jan. 26 at the request of District Attorney James Marsh.

Unger reported "negative" findings thus far. The investigation is continuing.

Mrs. Burton Keiper (Sadie A.) became owner of the property on Jan. 22 under the will of the late Keiper.

It is a pretty safe bet that we won't mention the common cold. We should,

A health bulletin has just come to hand which says:

"The average American has three to four colds per year. About \$100-million is spent each year on cold remedies, and time off from work, due to colds, causes a loss of \$500-million in wages.

So the common cold is one of those little financial "leaks" that cause us to wonder where our money goes and why it is always difficult to make ends meet.

Opinions Of Other Editors

#### Mr. Kennedy And The Press

ference was a meat and potato affair people.' such as this country hasn't witnessed in many a moon.

The big news, of course, is the Soviets' release of the two American fliers shot down over the Barents Sca

The President rightly welcomed the Russian "deed" as removing a read a abstacle in U.S. Soviet relations. But he didn't go all dewyeyed over it, nor did he appear ready to rush for the nearest Sum-

The Administration clearly refuses to be pushed into top-level meetings-or any other fateful negotiations-without painstaking preparation. The President asked for more time before resuming the suspended nuclear test ban talks in Geneva, and he reiterated the Administration's preference for "quiet diplomacy" through regular channels.

On Cuba, he reacted to Fidel Castro's list of conditions for better relations with distinct coolness. There are no present plans, he said, to resume diplomatic relations. He did, however, stress that United States is "extremely interested in movements in Latin America and Central America, or the Caribbean,

by Rep. Price, are bent on writing into law that Admiral Rickover is to be kept on active duty for four more

The bill they will introduce will suspend the automatic age retirement requirement and empower the President to retain him for four years.

It's unlikely Navy brass will openly oppose this. But there have been some hostile undercover rumblings. That's nothing new, but in the past this sniping got nowhere.

Rep. Samuel Stratton (D., N.Y.), another Armed Services Committeeman who is working closely with Price, intends to question new Navy Secretary John Connally about this matter. Also Admiral Arleigh Burke, chief of naval operations, who is due to retire this Summer.

Price and Stratton, in their conference with President Kennedy, will ask him to publicly endorse their bill.

They know definitely where Rickover stands on it. In a talk with him, the peppery nuclear expert stated his only desire is to "stay in the Navy and finish the all-impor-

tant task of building a nuclear submarine fleet second to none." "With your unique ability and experience," suggested Stratton, "you could go into private business and make a lot of money, Many corporations would grab you.

"I haven't the slightest desire to make money," replied Rickover. "My Navy pay is ample for my family needs, and my pension will take care of us when I do retire. All I want to do is stay in the Navy and complete the work I started a decade ago. It was vital then, and infinitely more so now."

"In what way?" asked Price. "There is still much to be done in developing our nuclear submarine fleet," said Rickover. "For one thing, we urgently need smaller and quieter reactors, especially for our Polaris missile subs, so they can more readily escape detection and carry additional equipment to enable them to stay submerged

Under the Price - Stratton bill. Rickover's retention as a vice admiral would not be counted in the number of flag officers, which is limited by law. He would be put in a special active

Red Fallout - Russia has more than 40 operating reactors: 27 of them for experimental or research purposes, and 16 producing power in stationary plants. These reactors include the three in the big nuclearpowered ice-breaker Lenin . . . As against this Soviet total, the U.S. has more than 350 reactors either operationg or under construction. They include three power stations, eight under construction, some 14 nuclear submarines, a nuclear aircraft carrier that is being built, a merchant ship nearing comple-

works. Russia has also supplied 16 reactors to satellite Poland, Czechoslovakia, East Germany, Hungary, Bulgaria, North Korea and China . The latter, in addition to the two obtained from the Soviet, has built one itself.

Next to Red China, Poland is

rated as having the greatest nuclear capability among the satellites. Western scientists consider Polish experts as among the best in the world. They have developed a high-efficiency reactor of advanced design . Russia has also supplied Egypt with a research reactor to train scientists and to produce isotopes . . . Soviet scientists are conducting tests on animals with chemicals designed to proevolved, it would be put to human use . . . Iraq is opening a when you were a child or an so-called "atomic center." A number of foreign experts, including some from Britain and Iron Curtain countries, are in Baghdad to advise on this project. Its purpose is to train Iraq nuclear specialists, as well as from other Arab countries.

# Just Between

-By Bobby Westbrool

When temperatures in the 20's seem balmy by comparison guess we're getting acclimated. Not resigned or comfortable, mind you, but used to it-the way you if you have to.

Even more than the physical discomforts is the mental anguish caused by the postponement or cancellation of all these meetings. Everything's going to happen at once - unless, of course, we have another snow storm next Thursday.

One good thing about this social hiatus is that it gave me room to expand about hair styles for the coming Spring and Summer-and that, in turn, reminded me of that session the fashion press had at the hairdressers in New York which I never did get around to telling you about.

We almost didn't get around to getting our hair done, either, what with the killing schedule. The invitation was issued early in the week when John Frederics "Jackie" manikin had had her hair styled by Ila, who would be pleased to do ours, too-free, that is.

All you had to do was call a number and say "Jackie sent me"! It sounded so sort of furtive and funny that we couldn't resist, figuring that, oh well, hair grows out eventualy whatever happens. It was way ulptown in the Hyde Park Hotel and for a minute you felt like something going through an essembly line

You got a ticket, stamped with the time of your arrival and your number in line, were shunted off to shed your dress and get a dressing gown, herded into a line of waiting chairs and then moved up like a bottle about to get a cap put on.

There were 75 operators all working away like fury, and an equal number of hair washers, manicurists and what-nots scurrying around. Some of the operators had their own hair up on big rollers, and everybody had on these big foot-fitting molded rubber shoes. You could see why, the pace they were keeping.

THE "SPIT-CURL" IS A "KISSING-CURL" in the 1961 version of the flapper hair-do presented during fashion press week. This style, created by Julius Caruso, features a sweep of hair to frame the face, with tip-tilted curls kissing the sides. Pointedly uneven at the sides, the right curl belongs to the eyes, the left to the chin.

"CHEEK-TO-CHEEK" is the name Frederic Jones gave his new hair fashion. This youthful hair-do teases the top hair into a crowning pouf, while the neck-hugging waves and "comma Curls accent eyes and cheek bones. Bangs are smoothly sophisticated - just long enough to make eyebrows important. The neckline is tapered to a "V".

### Actually as you really get underway, the experience was just Modified Flapper Look In same type of conversation going Hair Keyed To New Styles on all around you, the same rap-

Hadassah, Temple Israel ves- a Christian." Drawing an analogy by, and told Sterling she had a wonderful idea for a While we were chatting, Mrs. Claude Leister came length.

The back was smoothly understated, and no longer than the natural hair line at the natu form deeds of Christian service these days . . . and so, we can look forward to seeing a Public Card Party sponsored which will mark us as followers most unusual new zebra painting one of these days.

> There is something really wild about zebras in the snow, isn't there? Mrs. Leister told me Dr. Leister began experimenting with zebras in our climate a year ago, and found they take winter weather rather well, although the extremes of temperature we've been having recently have caused some concern. At the moment the Farm has two . . . male and female, born in this country, but Mrs. Zebra is expecting a new arrival in the Spring, and the newcomer will undoubtedly delight all the visitors to the farm next Summer.

> We gather from Mrs. Leister's conversation that these past few weeks have been exciting ones. On the coldest night of the Winter, an aoudad (a wild, North African sheep with large curved horns) greeted the stork . . . and the snows have made it necessary for the workmen to wade through hip-high drifts in order to hand feed more than 100 wild animals.

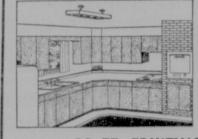

> It seems to me Wyckoff's is a wonderful place to Nowhere else would one meet so many interesting and talented people in such a short time.

> One thing that has resulted from the Wyckoff Art Show is my friendship with a number of wonderful people. A few years ago one of our judges was Allan Eldredge, one of our distinguished American marine artists, and an artist for the United States Government. Allan was accompanied here by his wife, Lee, a delightfully witty, very intelligent woman with whom one can talk about everything under the sun, and learn something new and interesting. Then, this year, through Lee I met Roy D. Parker, the gifted primitive artist, and his wife, a charming white-haired lady with a merry

> This past Saturday the Eldredges and Parkers spent the afternoon at Wyckoff's. We met for lunch in the Tea Room as Dr. Parker's guests, and later studied the Art Show and did a tape recording at the radio station for Monday's radio program. One of Dr. Parker's paintings was presented to former President Eisenhower for his Gettysburg farm, and he is the proud possessor of a highly complimentary letter from Mr. Eisenhower.

All of which goes to prove just what I pointed out some paragraphs above. I have always enjoyed meeting pople "who do things," but realize that one needn't go to New York, or Paris, or London to do so. Some of the most gifted people to be found anywhere are those who rub shoulders with average folks like myself in the busy aisles of Wyckoff's.

ever think how much better you'd look if you lost a little weight?

your calories now with the delicious new dietary drink made with fresh skim milk!

With new liquid PLAN, the delicious dairy-fresh drink, you can slim down to suit yourself! Here's what you do - just drink a glass of PLAN instead of eating a heavy meal. You're getting a meal's worth of nutrients, but far less than a meal's worth of calories. Do this for three meals a day if you wish - one quart of PLAN gives you 900 measured calories plus all the recognized essential nutrients for one day. Or, better yet, drink a glass of PLAN for all three meals, and in addition, eat a lettuce salad and small steak for supper. That way you're getting about 1200 calories per day. Either way, you can PLAN your calories pleasantly, and your waistline handsomely! PLAN is available in the dairy case at your grocery store or delivered to your home by your dairy. It comes in two delicious flavors -vanilla and chocolate. It has keeping qualities like good fresh milk. Start today to PLAN your new appearance!

> at the dairy case in your grocery store, or home delivered by your dairy (one quart is one full day's supply)

Equals or Exceeds National Research Council Recommended Daily Dietary Allowances. (N. R. C. publication 589) For accurate specific advice in all matters of weight control, consult your physician. PLAN is packaged by local dairies under license from Plan Foods and Research, K. C., Mo.

## Jack Cummins New Shawnee Golf Pro

JACK CUMMINS, sports director of television station WTJV, Miami, Fla., has been named head golf professional at Shawnee Inn, Shawnee-on-Delaware.

Cummins replaces Harry Obitz, who resigned earlier this month to devote more time to his golf operations at Tamiment-in-the-Poconos, White Face Inn. Lake Placid, N. Y. and Palm Aire Country Club, Pompano Beach, Fla. Obitz and his partner Dick Farley, also manufacture a one-man electric golf cart. Obitz held the Shawnee post for 15 years.

Cummins worked in the golf shop at Shawnee in 1940 and has been with WTJV since 1949.

He is presently the assistant pro at Palmetto Country Club, South Dade, Fla.

He will report to Shawnee, March 1.

Walt Alston Reports:

## Young Players Are Key In Dodgers' Chances In '61

OXFORD, Ohio (AP) - The the extra base and home run pow-Dodgers' pennant chances in 1961 er. Fellows like Howard and Tomwill depend largely on our young players, such as Frank Howard, 
Tommy Davis and Willie Davis, 
plus the ability of Charley Neal 
and John Roseboro to make strong 
comebacks.

er. Fellows like Howard and Tommy Davis showed signs of producing this slugging, and I see no 
reason why both won't improve 
this year. Willie Davis should be 
a great help to us in the outfield. 
He was voted the most valuable 
comebacks.

Neal and Roseboro nad bad 
years with the bat and this should 
also be improved in 1961. Neal 
was bothered with a bad hand, 
which hindered his good wrist action. Roseboro is still young and 
has all the tools to become one 
of the best catchers in the league. Dodgers' pennant chances in 1961 er. Fellows like Howard and Tom- Neal and Roseboro had bad

Our biggest weakness last year player in the Pacific Coast of the best catchers in the league. Charley Smith is another of our young players who figures to help.

He'll get a good shot at the regu-

lar third base job. The Dodger pitching staff is young, averaging about 26 years of age. I won't know who my five starters will be until spring training is well along, but there's 39 and Gunners ripped the Top point producer as Imbt plenty of fine material to choose Mountaineers 55 to 29 in YMCA for the winners with 17. Owens from, We've got Don Drysdale, Johnny Podres, Sandy Koufax, The Johnnies took a big five- S. Kintz's 22 points sparked the Roger Craig, Larry Sherry, Stan point first period lead to capture Gunners to their lopsided win. Williams and Ed Roebuck back the win. The half ended with win- Teammate F. Miller got 11 and E. from last year

The staff had some damaging injuries last season with Sherry's twisted ankle, Drysdale's bad hip and Craig's broken collarbone.

Young Hurlers

There are a couple of very good young pitchers who could make the team. They are Jim Golden, a 20-game winner in the American Association, and Pete Richert, a 41 lefty who won 19 and set a strikeout record in the Southern Association.

I'm not overlooking some of our older players either. Duke Snider and Gil Hodges still have some good baseball len in them and will hit better than they did last year, Norm Larker, who almost won nitted by Johnnie's 15; for the first base job with Hodges.

Comet is one of the least expensive compacts you can own! These are the facts. Comet costs less when you buy-up to \$331\* below other compacts. Comet gives you high resale value -up to \$617† more than other compacts. That's why it pays to own a Comet. But that's not all. Comet has fine-car features, too.

It's the first family-size compact Longer wheelbase-up to 7.5" longer than other compacts - means more Comet room, not only in pleasurable comfort-for-six seating but in over 28 cu. ft. of trunk space-up to twice as much as other compacts. Comet's big-car ride is the comfort difference Extra

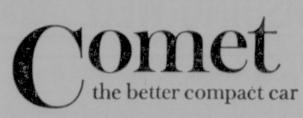

length also contributes to Comet's road-leveling ride. The refined new suspension and easier-action springs give Comet a better ride than many standard cars. And you'll find Comet turns, parks and handles almost as easily as a tricycle! Talk about economy and you're talking Comet To save

on gas, choose either of Comet's two thrifty engines. You change Comet oil only every 4,000 miles, get 10% better tire mileage, save on licenses and insurance. And Comet's superenamel finish won't cost you a cent for waxing-never needs it!

Both two- and four-door sedans and wagons Take your pick from sedans or wagons. Comet wagons have up to 30% more cargo space behind the front seat than most other compacts, plus a convenient roll-down rear window. Lasting quality, even where it doesn't show Comet is

quality, inside and out. Unit-built to keep quiet, stay sturdy and durable, Comet also has rustproofed vital underbody parts, complete soundproofing and an aluminized muffler.

#### Influenza In Tokyo

TOKYO (AP) - An influenza \*pidemic sweeping Tokyo forced the closing of 127 more classes in 22 primary and junior high schools and one kindergarten.

A thousand classes in 237 schools and nine kindergartens have now been closed, the metropolitan government announced. There have been no deaths to date as a result of the epidemic

### How Dr. Nason Helped a Boy's Future

CAN

Get

Better

The boy was overweight and unpleasant. He lacked confidence; he was failing in school. Nobody liked him except his mother.

"If he could just learn to make better grades," she said, "maybe that would help."

She had failed to help him improve those grades. So had the school. The boy was failing. Then someone told the mother about a man who might perform the miracle. As he had so many times before, Dr. Leslie J. Nason, educa-

tor and specialist in study habits, took the case. By teaching the boy how to study he performed the miracle of lifting him from failure to scholastic success-as well as

success with other children. "He wasn't stupid," Dr. Nason notes. "He just never had been taught how to learn."

In simple, nontechnical language, Dr. Nason now reveals some effective, neglected techniques of the art of learning. Don't miss the articles on "You CAN Get Better Grades," which Dr. Nason has written with Harry Karns.

– And be sure to send for the complete bookler; "You CAN Get Better Grades' being offered for \$1 with this series.

It can be the answer to your school problems:

This Series is appearing daily in this newspaper

### Why settle for the inconvenience of an awkward "lift-up" gate?

Before you put hard-earned cash on the line for any compact wagon, just try this: open the tailgate. If it swings up, as shown at left, you could be in for some lumps and bumps on the head as your cargo rolls out. But Falcon's tailgate, with the built-in, roll-down window, swings down. That means easier loading-and 26.1 inches more cargo deck (with tailgate down) for carting those long loads-up to 31% more cargo area with tailgate up. No doubt about it. Falcon hauls more—and that's what you buy a compact wagon for!

## Pay up to \$508 more? What for?

Only Falcon offers the just-right compact wagon!

Fordor Falcon Wagons, too.

#### Just Right in Convenience! Just Right in Price!

venience. For instance, seven wagon really is! Imagine . . . up out of eleven don't give you a to \$508 less\* than some comhandy, swing-down tailgate pact wagons, not stripped but with roll-down rear window on equipped the way most people all models. There's attention want their wagon . . . includveniences, such as two arm transmission and deluxe trim. cost! And of course, you can driving a dazzling new beauty, have your choice of Tudor or handsomer than ever inside and out.

#### Just Right in Economy!

Check the current crop of com- Cast an eye on that low price Of all compact wagons, Falcon's pact wagons. You'll find they sticker and you realize what a the economy champ! America's all fall short of Falcon's con- sensational value the Falcon sweetest, savingest 6-cylinder engine takes you up to 30 miles per gallon on regular gasoline-4,000 miles between oil changes. And Falcon's sensible engineering makes for rock-bottom paid even to the "little" con- ing radio, heater, automatic repair costs and lower maintenance, too. You save on tires, rests, two sun visors, two coat With all this that you save on mufflers, every driving cost in hooks, all standard at no extra Falcon's low price, you're still the book. P.S.
